WORK EXPERIENCE

Junior Developer

Bluezone System Pvt. Ltd | March 2023 - August 2023 |

03/2023 - 06/2023   *Mumbai,India*

6 Months of Work Experience at Bluezone Goregaon,

- Utilized tools like Visual Studio Code and ensured the environment was updated to the latest version.
- Migrated code from Visual Studio to VS Code, ensuring compatibility and efficiency.
- Played a key role in the development of TCE EMS (Web Application), focusing on creating and managing master data operations (CRUD) using .NET CORE in Visual Studio.

Internship Insights:

Intern At Visual Labs

07/2022 - 11/2022   *Mumbai*

Visual Labs & It Services Consulting

4 month internship at visual labs.

- During my 4-month internship at Visual Lab, I gained hands-on experience in programming languages including C, C#, SQL Server, HTML, CSS, Javascript, Core Java etc.
- This enabled me to apply these concepts to real-world scenarios and enterprise applications, further enhancing my skill set. I successfully completed various tasks that solidified my proficiency in software development.
- focus and passionate about building real world solution.
